Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Replace the title with the following: RECYCLED PLASTIC MOLDED PARTS FOR PHOTSENSITIVE MATERIALS.

Statement of Reasons for Allowance

3. The present claims are allowable over the closest prior art Lieberman (US 5,424,013) and Wypych (*Handbook of Fillers*) for the following reasons:

The present claims are drawn to recycled molded parts comprising crushed, used, molded plastic parts; a carbon black having a nitrogen adsorption specific surface area of $260 \text{ m}^2/\text{g}$; and an oxidation inhibiting material.

Lieberman discloses recycles molded parts containing additives such as antioxidant and carbon black, however, it fails to disclose or suggest a surface area of $260 \text{ m}^2/\text{g}$. Wypych teaches conventional carbon black surface area of $7\text{-}560 \text{ m}^2/\text{g}$, however, it fails to teach or suggest with sufficient specificity the improved properties had by using a carbon black with a surface area of $260 \text{ m}^2/\text{g}$. Applicant has shown that a composition comprising a carbon black having a surface area of $260 \text{ m}^2/\text{g}$ exhibits improved properties over a composition comprising a carbon black having a surface area of $110 \text{ m}^2/\text{g}$. This data is commensurate in scope with the claims and is

Art Unit: 1714

considered sufficient to overcome the teachings of Wypych which equally teaches 110 and 260 m²/g.

Thus, it is clear that the references do not disclose or suggest the claimed invention.

In light of the above, it is clear that rejections of record are untenable and thus the present claims are passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
